

Risky Foods: To what extent do US consumers eat raw or undercooked animal foods? (DGAC 2010)

Conclusion

Moderate, clear and consistent evidence shows that the consumption of raw or undercooked animal-source food products is relatively common in the US, especially for eggs and egg-containing products and ground beef products.

Grade: Moderate

Overall strength of the available supporting evidence: Strong; Moderate; Limited; Expert Opinion Only; Grade not assignable For additional information regarding how to interpret grades [click here](#).
